

2021 SIPS CONFERENCE ORAL PRESENTATION SCHEDULE -

Session	Presentation / Abstract Number	Title	Presenter Last Name	Presenter First Name	Principal Author Last Name	Principal Author First Name
O1.1	O1101	The Effects of Control on Pain Treatment Expectations	Strube	Andreas	Buchel	Christian
O1.1	O1102	Open-Label Placebo Treatment for Acute Postoperative Pain: Preliminary Results of a Randomized Controlled Trial	Sezer	Dilan	Gaab	Jens
O1.1	O1103	The effect of temporal information on placebo analgesia and nocebo hyperalgesia	Camerone	Eleonora Maria	Carlino	Elisa
O1.1	O1104	Efficacy of Non-Pharmacological Interventions for Pediatric Migraine: A Network Meta-Analysis Unpacking the Potential of Psychological Placebos	Koehlin	Helen	Locher	Cosima
O1.1	O1105	Can placebo effects be used to optimise mindfulness-based interventions for pain management? Results from a balanced placebo design study	Davies	Jonathan	Colagiuri	Ben
O1.1	O1106	In anticipation of pain: Expectancy modulates corticospinal excitability, pain perception, and autonomic response	Barnes	Kirsten	Colagiuri	Ben
O1.1	O1107	How variations in OPRM1 rs1799971, COMT rs4680, and FAAH rs324420 genes shape placebo hypoalgesia in chronic orofacial pain	Wang	Yang	Dorsey	Susan G.
O1.1	O1108	Effects of Sleep Quality and Insomnia Severity on Placebo Analgesia in Chronic Orofacial Pain Patients	Varghese	Jeril	Colloca	Luana
O1.1	O1109	The Relationship Between Immigration Generation and Placebo Hypoalgesia	Oula	Desai	Colloca	Luana
O1.1	O1110	Individual Placebo Analgesic responses Inform Virtual Reality-induced Analgesia in a Cohort of Chronic Pain	Wang	Yang	Colloca	Luana
O1.1	O1111	Efficacy of open label counterconditioning for reducing nocebo effects on pressure pain	Meijer	Simone	Evers	Andrea W.M.
O1.2	O1201	A neurophysiological characterization of nocebo-augmented pain: An EEG study	Blythe	Joseph S	Evers	Andrea W.M.
O1.2	O1202	Pain-related expectations and prediction errors in a Pavlovian transreinforcer paradigm	Horing	Bjoern	Buchel	Christian
O1.2	O1203	Open-label placebo for chronic low back pain: a 5-year follow-up	Carvalho	Cláudia	Kirsch	Irving
O1.2	O1204	Does a dog have a similar effect on our pain perception as a placebo? Investigating the mechanisms of animal-assisted interventions on pain	Wagner	Cora	Hediger	Karen
O1.2	O1205	The Impact of Virtual Reality on the Long-term Chronic pain outcomes: VR vs. Placebo component	Massalee	Rachel	Colloca	Luana
O1.2	O1206	Use of Complementary and Integrative Medicine and Placebo Hyperalgesia: A cross-sectional study in chronic pain patients	Yin	Margaret	Colloca	Luana
O1.2	O1207	Fear as a facilitator of nocebo hyperalgesia: Higher pain predicts larger nocebo magnitudes	Thomaidou	Mia	Evers	Andrea W.M.
O1.2	O1208	How continuous pain is transformed into a single rating	Hipp	Noah	Buchel	Christian
O1.2	O1209	Temporal Expectations Can Modulate the Onset of Action of Nocebo Hyperalgesia in a Tonic-Pain Model: a Randomised Controlled Trial	Battista	Simone	Testa	Marco
O1.2	O1210	Allodynic effect does not necessarily require sensitization of the neuroaxis	Adamczyk	Waclaw M.		
O1.2	O1211	Open-Label Placebo Treatment of Women with Premenstrual Syndrome: A Randomized Controlled Trial	Nascimento	Antje Frey	Locher	Cosima
O1.3	O1301	Do adverse events in placebo groups mimic the drug? A systematic review and meta-analysis of double-blind randomized placebo-controlled trials of pharmacological treatments in adults with insomnia.	Werner	Christoph Patrick	Colagiuri	Ben
O1.3	O1302	Placebo effects in nutritional supplementation trials involving buffering and caffeine supplements are moderated by ingestion form: A systematic review and meta-analysis	Martcorena	Felipe Miguel	Saunders	Bryan
O1.3	O1303	Comparative efficacy of pharmacological and psychological treatments and their combination as compared with placebo for alcoholism: (network) meta-analytic findings	Gerger	Heike	Gaab	Jens
O1.3	O1304	Mindfulness effects on stress beyond placebo effects	Peerdeman	Kaya	?	?
O1.3	O1305	The placebo-effect of clinician-expressed empathy on post-operative anxiety; the fearful patient benefits	Van vliet	Liesbeth		
O1.3	O1306	The ethics of placebo in the treatment of substance use disorders	Trachsel	Manuel		
O1.3	O1307	Placebo alcohol administration for experimental research: Using confederates to maximize deception	Bernstein	Michael H	Wood	Mark D.
O1.3	O1308	It's all in your mind: Randomized controlled trial of imaginary pills in test anxiety	Bürgler	Sarah	Gaab	Jens
O1.3	O1309	How to build expectations: A study comparing deceptive and open-label placebo in sadness	Friebs	Thilo	Kube	Tobias
O1.3	O1310	Untangling emotion and expectation: Positive affect, negative affect, and expectations for effectiveness independently predict open-label placebo approach responses	Clemens	Kelly S.	Geers	Andrew
O1.3	O1311	Placebo, addictions, and the interplay between pre-reflective and reflective activity	Arandia	Inigo R.	Pineda	Izar Agirresarobe
O1.4	O1401	Social Interaction and Not Just Social Skills Affect Placebo Phenomena	Arandia	Inigo R.	Di Paolo	Ezequiel
O1.4	O1402	Causal dynamics of patient-clinician facial communication are associated with insula cortex brain-to-brain concordance	Ellingsen	Dan-Mikael	Napadow	Vitaly
O1.4	O1403	Negative health expectations at times of a global pandemic: association with symptoms experience	Rozenkrantz	Liron	Gabrieli	John D.E.
O1.4	O1404	Placebos Studies and Patient Care: Where are the Nurses?	Annoni	Marco	Stewart-Ferrer	Sif
O1.4	O1405	Placebo from an Enactive Perspective	Arandia	Inigo R.	Di Paolo	Ezequiel
O1.4	O1406	Ritualistic components of treatment administration and placebo effect	Valerio	Marco	Faasse	Kate
O1.4	O1407	Predictive value of nocebo susceptibility on nocebo treatment effects	Karacaoğlu	Merve	Evers	Andrea W.M.
O1.4	O1408	Open-label placebo rationale revisited	Locher	Cosima	Gaab	Jens
O1.4	O1409	Self-Perception of Height in Immersive Virtual Reality by Varying the External Visual Context	Manoni	Mattia	Testa	Marco
O1.4	O1410	Desire for adverse event information: A survey of the Danish and American general population	Sieg	Mette	Clemens	Kelly S.
O1.4	O1411	Placebos without deception reduce self-report and neural measures of emotional distress	Guevarra	Darwin A.	Kross	Ethan
O1.5	O1501	Single-blind placebo run-ins among antidepressant trials	Scott	Amelia	Colagiuri	Ben
O1.5	O1502	The placebo effect on a dual task during gait	Villa-Sánchez	Bernardo	Fiorio	Mirta
O1.5	O1503	Apparent sex-differences on the effects of an open-placebo intervention on 4-km time trial performance in trained cyclists	Barreto	Gabriel	Saunders	Bryan
O1.5	O1504	Optimizing the efficacy of progressive muscle relaxation with videos using placebo mechanisms	Salzmann	Stefan	Rief	Winfried
O1.5	O1505	Really just a little prick? A Meta-Analysis on Adverse Events in Placebo Control Groups of Seasonal Influenza Vaccination RCTs	Bender	Friederike L.	Wilhelm	Marcel
O1.5	O1506	Open medication applied via App-based intervention combined with patient-oriented physician visits leads to significant added value for total knee replacement (TKR) surgery	Stuhlfreyer	Julia	Klinger	Regine
O1.5	O1507	Genomic effects associated with response to placebo treatment in a randomized trial of irritable bowel syndrome	Wang	Rui-Sheng	Hall	Kathryn T.
O1.5	O1508	Heart rate variability and social learning of placebo effects	Weimer	Katja	Enck	Paul
O1.5	O1509	NetVax and chill: Positive video framing for COVID-19 and influenza vaccination information to improve expectations and willingness of vaccine uptake	Wilhelm	Marcel	Rief	Winfried
O1.5	O1510	Investigating expectancy effects in an online study: the effects of positive and negative information framing on contagious itch	Meeuwis	Stefanie	Evers	Andrea W.M.
O1.5	O1511	Providing Open-Label Placebos Remotely – A Randomized Controlled Trial in Allergic Rhinitis	Kube	Tobias	Kirsch	Irving
