

**2021 SIPS CONFERENCE POSTER SCHEDULE**

Session	Category	Poster / Abstract Number	Title of Poster Abstract	Presenter Last Name	Presenter First Name	Principal Author Last Name	Principal Author First Name
S1	Addiction and comorbid conditions	002	Harnessing placebo-like mindsets to reduce post-operative pain and opioid use in teens: a study protocol	Heathcote	Lauren	Simons	Laura E.
S1	Addiction and comorbid conditions	008	Patient and Provider Acceptability of a Patient Pre-Authorized Concealed Opioid Reduction	Bedford	Theresa	Colloca	Luana
S1	Addiction and comorbid conditions	014	Peer-to-peer: The mediating role of anxiety and expectancy in socially-transmitted nocebo nausea	Tan	Winston	Barnes	Kirsten
S1	General	004	Attitudes towards informed consent: a review of patient surveys	Sieg	Mette	Vase	Lene
S1	General	010	Can social media information enhance side effect expectations?	Mirbagher	Leila	Faassee	Kate
S1	General	016	How are placebo effects optimally induced? A Research Protocol on the Study of Combining Learning Techniques in placebo analgesia.	Lenep	Hans van	Evers	Andrea W. M.
S1	General	020	Message framing changes perceptions for both generic and name-brand medications	Jason	Emily	Geers	Andrew L.
S1	General	022	Patient Acceptability of a Virtual Reality Clinical Trial for Chronic Pain	Bedford	Theresa	Colloca	Luana
S1	General	024	Which one would you prefer? An online survey assessing opinions about Open-Label-Placebos	Forkmann	Katarina	Bingel	Ulrike
S2	General	035	Effects of open-label placebos in patients and healthy individuals: Protocol for a systematic review and network meta-analysis	Bürgler	Sarah	Gaab	Jens
S1	Other	006	"One spray a day, keeps depression away?" – Evidence from an open label placebo intervention reducing negative emotional symptoms in stressed students at risk for depression	Winkler	Alexander	Hermann	Christiane
S1	Other	018	The health economic potential of harnessing placebos in treatment of ADHD	Hamberger	Jens	Weimer	Katja
S1	Pain	001	The Influence of Open Label Placebo(s) on Cognitive Performance: A Randomized Single-Blind Study	Albers	Johanna	Bingel	Ulrike
S1	Pain	003	'External timing' of placebo analgesia in an experimental model of sustained pain	Camerone	Eleonora Maria	Testa	Marco
S1	Pain	005	Assessing the role of sociocultural factors in pain assessment	Dildine	Troy C.	Atlas	Lauren Y.
S1	Pain	007	Can social observational learning enhance the effect of open label placebos in chronic low back pain patients and result in less pain medication use?	Schwartz	Marie	Linger	Regine
S1	Pain	009	Clinical Characteristics of Pain disability in a TMD cohort: A descriptive study	Thomas	Sharon	Colloca	Luana
S1	Pain	011	Effects of open-label placebo on pain and functional disability in patients with chronic back pain: A 3-year follow-up study	Kleine-Borgmann	Julian	Bingel	Ulrike
S1	Pain	013	Escalating morphine dosage during pharmacological conditioning fails to elicit placebo analgesia in a preclinical chronic neuropathic pain model	Boorman	Damien C.	Keay	Kevin A.
S1	Pain	015	From pain to paraesthesia: response-generalization of the nocebo effect	Skalski	Jacek	Adamczyk	Waclaw M.
S1	Pain	017	How do acute pain patients view Open Label Placebos	Rosenfield	Maayan	Bernstein	Michael
S1	Pain	019	Racial difference in Placebo Hypoalgesia: A case-control study	Raghuraman	Nandini	Colloca	Luana
S1	Pain	021	Testing contextual factors in a placebo-controlled surgical setting for pain relief	Marschall	Henrik	Vase	Lene
S1	Pain	023	The Influences of Socioeconomic Status on Chronic Orofacial Pain and Placebo Analgesia in a Sample of Temporomandibular Disorder (TMD) Participants	Wang	Yang	Colloca	Luana
S1	Pain	025	The patient-clinician relationship in a longitudinal fMRI hyper-scanning study of chronic pain patients: Neural and behavioral correlates	Grahl	Arvina	Napadow	Vitaly
S1	Addiction and comorbid conditions	039	The impact of positive expectations on induced affect and autonomous activity	Göhler	Annelie	Winkler	Alexander
S1	Pain	046	The Influence of Neuropathic Pain-Like Symptomatology on Placebo Analgesia in Temporomandibular Joint Disorder	Akintola	Titilola	Colloca	Luana
